No. 1910—Eighth Year. BUENOS AYRES, THURSDAY, JUNE 18, 1868. Circulation 3000

MAUA BANK,
101-103 CALLE CANGALLO

The offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 9 a.m. till 3 p.m.

The Company insures against loss or Damage by Fire Private Dwelling-Houses, Goods Deposited in Specific Warehouses of Stone or Brick, &c., &c.; and also issues "Floating Policies," extending to the Custom-House and all or any of the Private and Bonded Stores.

The whole advantages which can possibly be contemplated by those desiring to effect Fire Insurances, may be resolved into the following:—
1st. Security.
2nd. Honor and liberality on the part of the Company, in whose hands they place their interest; and
3rd. The purchase of these advantages at a moderate rate.

It will be found that all these are presented by this Company to the Public in an eminent degree.

The Company's large Capital, under the immediate management of the Directors of this Establishment, affords perfect security to the Assured, while it may confidently assert, from the Constitution of the Board of Direction, from the character of its present Members, and from the qualifications which will be deemed indispensable in their successors, that the highest honor and liberality will ever characterize all its transactions.

It has been the object of the Directors, in their minor arrangements, to afford every possible facility to those effecting Assurances with the Alliance, and the undersigned hold a Power of Attorney enabling them to settle at once any Losses that may occur from Fire, Lightning, or Explosions of Gas in Buildings, on or in which this Company has granted Assurances.

It being an admitted fact, that "Money makes money," the object of LA BIENHECHORA could not be better, since it opens a vast Savings Bank for the surplus or savings of the Public, so that, by the proper employment of these small gains, a moderate capital, or even annuity, may be secured in a short time. By this means a provident, though helpless, family can husband their small means, and, in the end, attain a competency.

It being proved that the accumulation of interest is the most powerful means of augmenting the capital, THE BIENHECHORA DEL PLATA—an Argentine Company, whose only investments are in the country—holds out to Subscribers greater advantages than any other Institution, by reason of all its dealings being in the River Plate, where are current as large interests as in any part of the world.

THE BIENHECHORA DEL PLATA receives Deposits of from Five Patacones per Annum up to any amount in Weekly, Monthly, or Yearly Instalments.

THE STORM.

As is ever the case in this city, a few days' rain, and the whole business of the place is brought to a summary stand-still. The city appears to be built only for fine weather, and even the customs of the country seem only adaptable to a state of drought Rheumatism and other equally painful complaints get into our bones, owing to the dampness of our houses and the sieve-like character of the azoteas. But it is useless to write about this matter, since the whole population is unanimous in preferring to live permanently on ground-floors. It is just as well, however, that the blind on peoples' eyes should be removed. Forty-eight hours of a continuous south-easter would bank up the South Atlantic into the estuary of the Plate, and every street in town would then be flooded, with the furniture swimming about in every room.

That the oldest inhabitant cannot remember the occurrence of such a flood, is no reason why it cannot or may not happen. The city has been saved this week by the kind dispensation of an all-seeing Providence. The wind veered to the east, just at the moment when another half-hour of a south-easter would have lashed the waves over the mosaic pavement of Mr. Drabble's house, or the Argentine portico of the British Hospital. Few can realise the dangers we have escaped, because they are unknown. The earthquake wave, at the island of St. Thomas came unawares on a whole people, and astonished the entire thinking world. The impotence of human efforts to resist the elements, is even visible in this city. The breakwater at Paseo Julio on Monday was mocked by the angry surf, and the roar of the ocean, as it broke over the old brick-yard of Mr. Billinghurst, and dashed madly round the base of Fair's Quinta, now Lowry Castle, must have convinced, even the most heedless, of the insecurity of this town.

This one storied, or more properly termed ground floor town, is now so thickly populated that a good River Plate flood would leave seven-eighths of the population houseless; and we call attention to this fact in order that the necessity of modern-built European houses may be better appreciated. An engineer of high standing, who surveyed the flood from the top of Calle Europa on Monday last, ridiculed the idea that the height of the streets on the barranca or hill was a sufficient safeguard for the inhabitants against the possibility of the water touching their premises. A continuance of the gale, at the point at which it was then, would in a few hours bank up the ocean on the town; and then, God help the ground-floor occupants. Luckily for us all, the terrible floods of which we read in other countries are unknown here; but it must be borne in mind that if ever we have a flood it will indeed be a mighty one, since it will not proceed from the swollen tributaries of a river but from the very ocean itself, being fairly pushed back on our low swampy seaboard.

If, however, to avert such a dire calamity, all our efforts are impotent, at least with proper management we can protect ourselves against a shower of rain, or a few hours' 'Scotch mist.' At present we are at the mercy of the thermometer. Let every man to-day take a run to our wool plazas, and see the accommodation which the Government extends for wools and hides arriving in wet weather. Not only are there not sheds to protect the produce from the weather, but positively there are not footpaths across the markets, and any person who has to visit a bullock cart or get to the railway station, must either hire a coach or flounder in twelve inches of mire.

We hear the gigantic progress of trade constantly dinned into our ears, and the splendid returns of the Custom-house, but, may we ask, what has the Government done in anticipation of this great increase of commerce? President Mitre foretold, at the inauguration of the Great Southern Railway, that before his time of office expired the receipts of the Custom-house would reach a million per month, and his prophecy has been realised? but what steps has he taken to meet that increase of trade which, with prophetic vision, he foresaw? Look at the Poca, the very mouth of which is blocked up with Argentine mud. Only a week ago a crowd of lighters were giving rise to endless claims for demurrage, &c. Look at the harbour paved with sunken anchors and insidious wrecks, in some places three wrecks on top of each other. Look at the wool plazas, without even a public shed, and the bullock carts anchored in three fathoms of a pantano.

In fine, Buenos Ayres is only for fine weather, as its name indicates. A storm like the present, and the whole place reduced to a primæval state of chaos.

The storm still continues. It blows hard from the east as we write; and the following despatch from our besieged Belgrano correspondent has just this moment come to hand:—

"Yesterday the water rose to a higher mark than it has done for some storms past. All the carts that could be found were put in use to save the poor families and their effects. In the bañado the water rising above the roofs of some of the ranchos. The Juez de Paz, and all the police, swimming about to do all they could to save the poor people's things. Watson gave his spare rooms and galpon to shelter the rescued, and made them a good puchero. It was hard work for the carts to keep the road, on account of the deep ditches on each side. No train from town to Belgrano all day yesterday, nor from the Tigre to San Fernando. Omnibusses running from town to Belgrano to catch the train here."

HURRAH FOR THE PATENTES!

SPLENDID SPORT AT THE TAX-OFFICE.

It was never contemplated by the Legislature, when passing the odious Patente Law, that the citizens of B. Ayres should experience the present scandalous inconveniences. The impost was ordained to meet the exigencies of the Government, and not to prove the fighting qualities of city shopkeepers and merchants' clerks. The payment of the railway guarantees, the interest on a portion of the English debt, and some other minor disbursements, were set forth in the preamble of the law, to justify it before the public. The measure is, doubtless, the most unpopular that the Alsina Government has had recourse to, since it reverted to a system of taxation which antecedent Governments had long previously exploded; but, we take the liberty to remark, that not all the influence of the Government, not all the exigencies of the Treasury, would have succeeded in passing the bill, had the public but been aware of the outlandish abuses to which it would give rise.

The rush on the banks in Montevideo, of which we read in the papers for the last fortnight, is as nothing when compared to the rush on the Patente-office in Calle Bolivar during the last few days. The tottering credit of these Oriental institutions may account for the crowds in the streets, and the impatience of the public; but there can be no great excuse for the mob which now besieges the Patente-office, and the rush-and-tumble at its doors.

In a small office, 3 x 4, in the Government-house, adjoining the back yard and hard by the Government stables, sits the great tax Mogul of Buenos Ayres, with a small boy to serve 'mate,' and a tall clerk to wait on the public. The office hours of this star chamber are from half-past eleven till three, or, in other words, two hundred and ten minutes per day, with a 'pulperia' counter and an apothecary shop railing. The young man whose business it is to receive the money, deals out the 'patentes' certificates with the severity of a Montevidean bank cashier.

There is a story told of the Marquis of Waterford, who was so renowned for his practical jokes that, on arriving at a country town for the first time, it was his invariable custom to call a meeting in front of the hotel, address the multitude from the balconies, and wind up by throwing hot shillings and sixpences amongst the crowd. The sport, of course, was splendid, and the noble marquis from aloft watched with keen delight the boxing and fighting going on to which his heated prodigality gave rise.

When the rush commenced at the Patente Office we, of course, thought that it was a practical joke of some of our friends in the Government-house, but, as we failed to discover any of the Government people on the azotea looking at the sport going on below, we have come to the conclusion that the 'patente' row is attributable to other causes.

The 'modus operandi' of paying the patente tax this year is pretty much the same as that of converting paper money into gold in Montevideo, as no business man can afford to stand in the street waiting for the office to open and then for the police to let him in, it is necessary to send a clerk to do the business; but, as within the last few days some wide awake merchants obtained their Patentes by hiring muscular 'changadores' to push down, haul out and knock aside all the clerks and boys congregated around the door, the custom has now become general, and to-day a mob of 'changadores' hold the entrance of the Patente-office and defy the possibility of any respectable man getting in. Yesterday there was an excellent fight, a sort of free boxing match in the street, which afforded capital amusement; the soldiers and sentries of the Government-house, the almaceneros in the vicinity, and the bricklayers and peons engaged in Anchorena's building in front, witnessed the affair, which took its rise owing to an unforeseen accident that happened to a Calle Victoria shopkeeper. It appears that the party in question, determined to be the first to get out his Patente, went at an early hour to the office—found it closed—and waited patiently until noon in all the rain, until the clerks had breakfasted and come down to their office. Meanwhile, the crowd gathered in the street, and our friend held his post, determined to be first served. On the opening of the door, he at once rushed in, handed in his certificate with the money, and asked for his Patente. Some little delay occurred; the paper had to be ruled, the name entered, and the money counted. Meanwhile the crowd pushed into the office and jammed our friend so close against the counter that he began to fear it would give way to the pressure; at last, however, the necessary document was handed to him, and, congratulating himself on obtaining his 'patente' without having to employ a changador, policeman, or small boy, he turned to go out—but this was the rub: the mob of tax-payers who crowded the office tried to make room to let him pass, and, after immense difficulty he reached near the door; here the squeeze was terrific. He asked, implored, and besought of the people to let him pass; as well might he have asked the mob to pay his tax for him—and the press of the crowd was so great that gradually he found himself pushed back to the counter. In his efforts to escape he made such a noise and such a fuss that some voted him to be pitched out of the window; but this was found impracticable, owing to the iron bars which defended it. The office now was something like the 'Black Hole of Calcutta,' and cries for water were heard; at this moment a strong, powerful Genoese changador, having obtained a 'patente,' pushed his way towards the street. Our friend, who seized the opportunity, also seized the changador's jacket, determined to follow in the wake of his athletic friend. After the most superhuman efforts, they escaped from the office and got into the crowd on the sidewalk. Unfortunately, at this moment a cart came up, which jammed the multitude closer up to the wall of the Government House; our friend still held on the changador's jacket, but the squeeze was so great that the garment gave way, and then a sort of free fight ensued.

The changador pommelled the man who tore his coat; our friend, in defending himself, dropped the Patente, which was at once picked up by a boy, who was instantly collared by a bystander, who roared out stentoriously 'ladrones!' People struck at each other promiscuously; and all who looked like patente-payers got blows between the two eyes. The police came up and tried to restore order, but the peon with the torn jacket would listen to nothing; and the Calle Victoria shopkeeper held on to the boy who picked up his Patente. The closing hour for the Patente Office having arrived another row occurred in trying to turn the mob out of the office. The last we heard of the affair was that the boy, changador, and the Calle Victoria shopkeeper were all walked off to the Policia, and fined $100 each for causing a disturbance in the street.

The amusement to-day begins at the usual hour, and a capital view of the sport going on can be obtained, at a moderate charge, on the scaffolding in front of Anchorena's new house.

THE CUÑAPIRU GOLD MINES.

RESURRECTION OF MR. BANKART.

Yesterday we had the pleasurable surprise of seeing Mr. Bankart (the full particulars of whose tragical death were brought down by the previous steamer) enter our office. Mr. Bankart complains, with very just cause, of the malicious reports got up in Salto, now for the second time, respecting his demise, and hopes the Salteña authorities will make some efforts to put a stop to such nefarious hostility. During his journey to the mines from Salto he experienced the greatest hospitality and kindness, and nothing whatever occurred to even give a color to the rumor of his having been waylaid and assassinated. The Government supplied Mr. B. with an escort to and from the mines; and he has brought down some fresh samples of nuggets and quartz, the finest and best we have ever seen; and really from the samples in question we feel certain that when developed the Cuñapiru mines will prove a splendid speculation.

Mr. Daniels remains at Salto to receive instructions, and Mr. Bankart proceeds to Montevideo to await orders, previous to proceeding to England to purchase the machinery.

Mr. Bankart arrived down in the Rio de la Plata; put into the Tigre; came up as far as Belgrano in the train, and the rest of the way by the diligence. His friends here, who have been praying for the repose of his soul, will learn with pleasure that at present he finds himself in no necessity for such fervent and pious supplications.

EDITOR'S TABLE.

Although the storm continued with unabated fury yesterday morning, and the wind was blowing great guns, the state of incommunication in which we have been kept for the two previous days came to an end. The Rio de la Plata, from the Uruguay, due here on Monday morning, was obliged to anchor at Higueritas all night on Monday, and on Tuesday, at two p.m., reached the Tigre. The passengers with the mails, after an adventurous journey, partly in the railway cars, and partly on foot, eventually reached Belgrano in the evening, and found shelter and inner comfort at Watson's, reaching B. Ayres yesterday about eleven a.m. The Rio Negro, from Montevideo, had also to put into the Tigre yesterday, and her mails were not delivered until a very late hour.

The passengers that arrived in town yesterday from the Tigre complain very bitterly of the condition of the San Fernando Station on the Northern line, which reflects but little credit on the company; all the panes of glass in the doors smashed, and a total want of decent or proper accommodation.

A respectable Italian owner of two or three small river crafts, in stepping into his boat yesterday at the end of the mole, fell down dead suddenly from an attack of heart complaint.

The *Republica* publishes an interesting correspondence from Coronda, province of Santa Fé, dated the 8th inst., in which the writer makes a telling comparison between the present administration and that of Sr. Oroño, more particularly with regard to the civil marriage law, of which Sr. Cabal, the present Governor, was at the time of its being discussed and passed, an ardent supporter, but which he is now obliged to repeal to satisfy the exigencies of the party which has raised him to power, and which views with horror any innovation that favors progress and civilization.

Yesterday No. 11,000 was painted on the last bale of wool prepared in the barraca belonging to Mr. Bunge, in partnership with our indefatigable countryman Mr. Temperley. They hope before long to complete the figure of five unities—viz., 11,111. These enterprising gentlemen bought from one single seller, Sr. Arias 100,000 arrobas of wool—some of it in the camps, but the greater portion in the South Plaza and at the Station. From the beginning of the season Messrs. Bunge & Temperley have shown the greatest activity purchasing wool from $40½ the arroba up to the highest prices obtained this year for this article. By their intelligent devotion to this vital branch of our native industry, they must greatly contribute to raise its importance; and, for our part, we sincerely trust that they may find the reward due to their energy in a profitable return for the investment of their capital.

During the bombardment of Curupaity a live shell fell on a bale of hay on board the steamer Brazilero anchored in port, and an English sailor had the courage to shove it overboard before it exploded, thus saving the steamer. We have not been able to ascertain his name. During the Crimean war a soldier for a similar act was rewarded with the Victoria cross.

As the Goya passed the Esquina on her last trip down a rumor was prevalent there that two of the revolutionary parties were seized by the Commander of the Entre-Riano troops, staked to cross-trees in the middle of the plaza, and left there to die. On her way up she was boarded by several of the revolutionists at Goya, who hearing that Caceres was close upon the town, fled on board of her to proceed to Corrientes, but they declared that if Caceres came to stop them they would die upon the Goya's deck, rather than be taken alive, they all having their revolvers and knives ready.

We regret to learn of the unfortunate dissensions that have caused a schism among the members of the Sala Comercial del Mercado Constitucion, in consequence of which this once promising institution may be said to have ceased to exist. At the meeting lately held to discuss the propriety of removing to more commodious premises the debate assumed from the beginning an angry turn, and degenerated into personalities which everybody must have deplored, leading to the withdrawal of a number of the members of the old society to form themselves into an exclusive and new society. While lamenting this separation we would suggest as a means of healing old dissensions which we are willing to believe are due entirely to the momentary heat and have no well grounded motive of existence that an enteinte cordiale should be established between the old and new society, and that each should give unreserved admittance, and allow the use of their rooms to the members of the other.

In consequence of the attitude assumed by General Arredondo lately in the Rioja, the National Government kas issued a decree first cashiering him and then ordering him to appear before a court martial to answer the charges of insubordination to be brought against him. This is putting the cart before the horse with a vengeanco. The decree is however violently attacked by the opposition press as unconstitutional, because as Generals are appointed by the President with the concurrence of the National Senate, the President cannot without the approval of the latter cancel the appointment.

The auction of the Santa Catalina estate on Sunday last was, as we stated, not definitively closed, the auctioneer having clearly stated that he could only admit the highest bid made on the occasion—viz., $1,250,000, subject to the approval of the Juez Comisario, since the conditions of the sale were that no offer could be accepted under two-thirds of the valuation—viz., $1,847,000. The Juez Comisario having refused his consent to the arrangement of a private nature made on Sunday between the auctioneer and Don Carlos Mahe, the property will again be put up to auction on to-morrow (Friday), the 19th instant, at three p.m., at Señor Serna's auction rooms, No. 218 Calle Belgrano. We think it right to remind the public that this estate was originally destined to a foreign colony, which, under the management of Mr. Robertson, was the first to come to these shores since the country had proclaimed its independence; was the pioneer of the enormous foreign immigration that has followed it, and contributed so materially to the progress and prosperity of these regions. Capitalists should not lose sight of this circumstance, which gives to Santa Catalina an historic interest of the greatest value.

Mr. Wilkinson, of the proposed railway from Salto and Santa Rosa, near Uruguayana, has arrived in town having completed the surveys. The plans will be sent to England by the next mail, where the company will be formed.

The James T. Brady left yesterday evening for Montevideo with a full list of passengers.

PARAGUAYAN TELEGRAM TRANSLATED.

[Copy No. 63.]

Most Excellent Sir,

We have had the honor to receive No. 26, at 8 a.m. yesterday, in which Y.E. has been kind enough to inform us that Serjeant Piris had gone back, owing to difficulties met by him on the road.

We continue to explore roads J. and O., for the purpose Y.E. has been pleased to mention.

We do not lose sight either of the Arroyo Oro, in case all the others are obstructed. In that port there are two steamers and the ironclad Columbus. The regimental horses are in fair condition. Ensign Candia, in an ambuscade he made yesterday, succeeded in killing only one Brazilian (negro), when they were retreating.

We continue to molest the enemy with our surprises, and we almost daily kill one or two Brazilians (negros) besides the losses we occasion by bombarding, which we learn from our spies. On one occasion the Christian burst in the midst of a group of Brazilians (negroes) and killed fourteen rank and file and two officers.

We are seeking the means of effecting a diversion by the Arroyo Hondo.

We respectfully thank Y.E. for the news concerning the American steamer, and that relative to the political and financial state of the countries with which we are at war.

We always keep the spies of which Y.E. is pleased to speak on both sides, and we recommend to Y.E. Sergeant E. Silva, who has for some time discharged this duty well.

We thank Y.E. for your benevolent and paternal interest towards us, anxiously trusting that Y.E. will be preserved in good health and prosperity.

29th. In the afternoon the Brazilians (negros) have made no movement, only working in the trenches. The traffic of carts and loaded mules the same as ever.

30. Two cavalry regiments that had gone to the camps at San Solano, returned in the afternoon. Eight battalions and two regiments have been drilling at several points of their encampment. From Paso Pucu two hundred horses have been taken to Paré.

31st. During the night they succeeded in setting fire to twenty-five shells and a box of infantry packages undone, in consequence of which they began to bombard us, and we returned the fire. We have suffered however no personal casualty, and with the exception of the usual traffic of carts and mules from Curupaity to Paré, nothing new has occurred.

About one o'clock in the afternoon a Brazilian presented himself, saying that he was a deserter from a redoubt on the coast of the Cierva, where he says there are four 32-pounders, three cannon of lighter calibre, and two mortars; that in the day time they have there four battalions, each about three hundred strong, and four regiments of cavalry, that do duty as vanguard; that the Marquis had his headquarters in the orange grove of Gamarra, and Osorio in that of Posé; that there is much desertion in their ranks. His declaration not having appeared satisfactory he has been placed under arrest.

From the small trench on the coast of the Laguna S. Hondo they have continued two bodies of abattis. The two 'riachos' are again swollen. The river is rising at the rate of four inches in the twenty-four hours.

Nothing new.

May 31, 3.30 P.M.

Excellent Sir,—

We beg to inform Y.E. that nothing new has occurred in the encampment.

The enemy has fired shells with more profusion since yesterday night. During the night an explosion took place to the South, caused by one of them, which according to official information set fire to some ammunition left outside near a trench, for want of room in the deposit: no personal casualty had however occurred. Yesterday a Brazilian came over saying he was a deserter, and that a companion followed him by another road, who however has not turned up, and the former has been secured.

The version of Paraguayan forces is not confirmed.

We beg to express our best wishes for Y. E. good health and prosperity. God preserve you, &c. May 31.

THE BOUFFES PARISIENS.

Buenos Ayres, June 17, 1868.

To the Editors of the *Standard*.

Gentlemen,—

I shall feel highly obliged by your giving insertion to the following in your valuable paper.

I remain, Gentlemen,
Your obedient servant,
D'HOTE.

TO THE PUBLIC.

On Sunday next the Bouffes Parisiens will give irrevocably their last performance, the departure of the Company being fixed for Wednesday, 23rd inst.

I do not wish to leave here without thanking the public of Buenos Ayres for the proofs of sympathy I have received at their hands, and express the regret I feel at being obliged to depart so suddenly.

Having contracted an engagement more than a year ago in Montevideo, and having found out during my last week's visit to that city that I could no longer delay in fulfilling my obligations to my numerous subscribers there I trust this public will be sufficiently just to appreciate my delicate position.

I hope when I come back, at the end of September, to satisfy all requirements, because the Company will during its absence be recruited by new artistes from Paris, and be able on its return to perform in a proper and becoming manner several new great dramas, comedies, operettas, and among others the grand Buffo Operas by Offenbach—La Grande Duchesse de Gerolstein, La Belle Heléne, and Barbe Bleue.

D'HOTE,
Director of the Franco-Argentine Theatre.

THE SCHOONER MONITOR.

THE FIRST IRON VESSEL BUILT IN THE TIGRE.

This fine schooner of 90 tons left the Tigre for a trial trip on Saturday last, with a select company on board to witness her sailing qualities. Captain Leckes kindly towed her out to the mouth of the Capitan with his little steamer, where the sails were first set. Her performances from that time were a perfect surprise to every one on board: with a high wind she glided the water at the rate of eight knots an hour, passing every sail afloat.

The success of this vessel, on her first trial, is exceedingly creditable to Messrs. Stephens and Kay, the builders, and must be highly gratifying to Mr. Blessing, her enterprising owner, who has spared neither expense in her rigging and general fitting. Her dimensions are as follows:—

Length over all, 70ft; keel, 60ft.; beam, 19ft.; depth of hold, 6ft. 6in.

She made the trip from San Fernando to the inner roads in two hours forty minutes.

ANOTHER COLLISION.

Buenos Ayres, June 12.

To the Editors of the *Standard*.

Gentlemen—

I beg leave, through your valuable paper, to call the attention of the public to the scandalous state of the regulations regarding the meeting of steamers in the River Parana. It seems to me that no attention is paid to the rules laid down by the Captain of the Port, as will be seen by the following:—

The National steamer Goya was, on the night of the 12th inst., coming down the River Parana, and abreast of Point Andario, about fifty miles above Parana, with her lights burning brightly, when she perceived a large steamer bound up the river, and bearing down straight upon her The captain of the Goya reversed his engines, and blew his whistle three times immediately, in order to prevent a collision; but no notice was taken of it, as the upward bound steamer, instead of passing to the port side of the Goya, as is the law of the river suddenly put his helm over to starboard, and, consequently, cut the Goya down to the waters edge, and passed on at full speed ahead, without asking if the Goya required any help or not; therefore, the Goya does not even know what steamer it was, but supposes it to be the Brazilian tranport Santa Cruz.

Had the Goya not backed her engines both steamers must have sunk, with probably all hands, owing to the culpable neglect on the part of the unknown steamer in not porting his helm, instead of putting it to starboard, as was the case.

Hoping for the sake of justice you find a corner in your paper for this, I beg to remain,

Gentlemen,
Yours obediently,
An Englishman on board.

WORDS OF COMFORT TO THE WEAK.

In addition to the ailments common to both sexes woman has special ailments of her own, which demand our sympathy, and should receive relief if possible. IT IS POSSIBLE. In her peculiar trials she needs strengthening and sustaining, and the functional derangements to which she is subject can only be removed by a preparation combining the properties of a tonic and regulating medicine. Alone among remedies of this nature stands BRISTOL'S SARSAPARILLA. Which vegetable perfectly innocuous, especially adapted to delicate and over-susceptible organization, it will be found invaluable in all the peculiar physical exigences of the sex. Used at the same time with the Sarsaparilla BRISTOL'S VEGETABLE PILLS will be found a powerful help in effecting a complete cure, carrying off from the system the vitiated and depraved humours set free by the Sarsaparilla, and thus enabling the organs to resume their healthy functions at the proper and natural seasons.

ON 'CHANGE.

June 17, 1868.

Ounces,	440
Sovereigns,	12½
Patacons,	25
National Bonds	44½

There was very little done in Bonds to-day. The market opened and closed flat, and the general opinion among the brokers is, that Bonds have for the present touched their lowest.

The telegrams from Montevideo announce some efforts by the merchants to induce the adoption of measures to help the banks, and thus escape the crisis. The failure of the Montevidean Bank has caused much loss in almost every circle, and if some steps be not soon taken, some other banks must soon close their doors. This is now becoming so obvious, that the whole mercantile influence is brought to bear on the Government to afford relief; but the time is passed for any such measures, the banks must stand or fall on their own bottom, and although the losses will be severe, the market will, after the crisis blows over, have a healthier tone.

Exchange has opened for the packet at 50d., but as yet only a small business done. Money rules so scarce that brokers speak of a probable rise in the rate.

In discounts very little doing. The Provincial Bank discounted to-day a fair amount, but the other banks are collecting in all they can.

The Villa Del Salta, and the James T. Brady, both leave this evening for Montevideo. The American steamer takes down a large number of passengers.

The sudden demise of Mr. Wiedemann, of the firm of Langelaan and Co., was mentioned on 'Change to-day, as having telegraphed up from Montevideo. The deceased gentleman was much and deservedly respected by all.

The mails from the Tigre came up yesterday at a very advanced hour. Nothing further respecting the Presidential elections has transpired.

There is a very general complaint in commercial circles at the gross inconveniences which surround the payment of the 'patente tax.' It was found necessary to-day to put three policemen on the door to keep out the crowd. Merchants and others trust that Governor Alsina will put a stop to this business, and either put on more clerks, and open other offices, or extend the time of the payment.

Respecting the stoppage of supplies to the army by *Caseres*, there is much said. Already diplomatic notes have been exchanged on the subject. The Goya's passengers give a most terrible description of the state of things all along the Correntino river banks; at some of the little towns the shops have been sacked, and some of the revolutionary party crucified in the plazas.

The Cabal business is without alteration; the bills have not as yet been paid, but indorsers expect the money on Saturday.

It is stated with some colour of authority that Baron Mauá has determined to permanently liquidate the Montevidean house. The Bank here and in Rosario will go on as usual, and an agency henceforward only exist in Montevideo. The report of the inspecting committee is so generally known to be highly favourable, that holders of Mauá notes refuse to sell under par. As yet the report has not been published.

In the produce market nothing doing.

Shipping business at a standstill.

Our special reporter at the South Plaza says:—

At the South Plaza and Station nothing done on account of the bad weather.

No arrivals.

Stock on hand at the Plaza very small.

At the Station, 7,000 ar. wool.

1.5 p.m.

Arrivals as usual, with the train from Chascomus.

Rain all night and day.

THE ACME OF MEDICAL SCIENCE
IS ACHIEVED IN THE WONDERFUL DISCOVERY OF NEW MEDICAL PRINCIPLES IN
DR. RADWAY'S
PERFECT PURGATIVE PILLS
COATED WITH SWEET GUM.
1st Principle—A vegetable substitute for Calomel or Mercury is secured.
2d. A cathartic that cleanses the alimentary Canal and its neighboring Viscera as thoroughly as Lobelia does the stomach.
3d. Functional Harmony is secured to the secreting vessels of all the organs and glands in the system.
4th. Purification and equalization of the circulation of the blood.
5th. The properties of these Pills communicate a nutritious principle to the blood and reparative secretion.s
6th. A great want is supplied in their soothing, healing and expulsive power in cases of intestinal ulceration, as in Eruptive Fevers, where a cure depends upon free evacuations.
7th. The aged and persons suffering from paralysis of the bowels, by the use of one pill per day, secures regularity.
Persons suffering with any disturbance of the secretary organs, or that have difficulty in discharging the contents of the bowels, or that are in the habit of taking Pills or opening medicines, should try one box of these truly excellent Pills. The happiness of their effects on the system, and the satisfactory evidence one box will give you of their wonderful curative powers, will convince you that your faith and trust in them will become firmly established.

RADWAY'S
REGULATING PILLS.
A newly discovered principle in vegetable medication is securred in Radway's Regulating Pill, that places them far in advance of all other Purgative or Cathartic, Aparient or Sedative, and Anti-Bilious Medicine. They are the only vegetable substitute for Calomel or mercury known; the only Medicine that, during their process of purging, imparts nutriment to the debilitated system, and strengh, vigor and purity to the blood, and impaired secretions; the only purgative that will cleanse the Alimentary Canal and obstructed intestine as quickly and thoroughly, without weakening or neauseating the patient, as Lobelia (the most active and thorough emetic of the herbist) will the stomach, and the only purgative at present known safe to administer in case of Small Pox, Yellow Fever, Erysipelas, and other Malignant Fevers, that inflame and ulcerate the mucuous membranes of the Bowels, Stomach, &c.

THE PROPERTIES OF
DR. RADWAY'S PILLS.
They equalize the circulation, Purify the Blood, and Purge Corrupt and Acrimonious Humors, and retained deposits from the system in six hours.
AS A CATHARTIC, the increase, when suspended, the peroitaltic movement of the bowels, and promote a quick evacuation of its contents. Their influence is extended throughout the system, purging the retained deposits in the stomach, into the duodenum, stimulating the secretory, ducts of the pancreas and liver, in the promotion and increase of the flow of bile and pancreatic fluids.
PURGATIVES of common aloes exert their action on the colon and rectum by irritation of the mucuos membrane, without influencing the liver or its secretions. Such cathartics are unsafe in pills for general use. The common Cathertic Pills, that induce drastic liquid discharges, should never be given in cases of inflammation, or when there is ulceration of the intestinal canal.
THE APERIENT and mild LAXITIVE properties of RADWAY'S PILLS are the best safeguard in these disorders, and in all cases of eruptions and malignant fevers their balsamic, healing and sothing properties protect the coats of the alimentary passage against the irritant and acrid humors of the fauces.
THE NUTRITIOUS AND TONIC properties of these Pills are of great service in depleting fevers and uterine discharges, likewise as a dinner pill, to increase the appetite and promote digestion.
THEIR SEDATIVE properties allay pain in the nervous system, stomach and bowels, either from inflamation, colic, flatulence, wind, cramps, &c.
THEIR COUNTER IRRITANT influence extends throughout the system where there is inflamatiou, congestion or irritation, stimulating the blood and nervous fluids in the congested vessels, and equalizing its circulation. The principle of Counter irritations is generally applied to external remedies. Its application, internally, in the form of a purgative medicine, exemplified in Radway's Pills, has proved a wonderful curative principle, readily withdrawing from the blood and fluids their acrid and irritating humors.
AS DIAPHORETICS OR SUDORIFICS they stimulate the secretions of the skin, induce exhalation of obstructed perspiration.
THEIR DIURETIC properties act on the kidneys, correcting and regulating the flow of urine.
THEIR ANTI-BILIOUS properties stimulate the liver in the secretion of bile, and its discharge thorogh the biliary ducts. In all cases of Headache, Jaundice, Bilious Attacks, Saffrom-col red Sking, Impaired Digestion, caused by the overflow of bile and its mixing with the blood, theto pills, in doses four to six, will quickly regulate the action of the liver and free the patiedt from these difficulties. Ona or two of Radway's Pills taken daily, by those subject to bilious pains and torpidity of the liver, will keep the system regular and insure healthy digestion.
In case where there is severe inflamation, paralysis of the bowels, and a speedy discharge of their contents required, grind six of the pills to a powder and take in some preserves or water. In half an hour the pills, given in this way, will generally operate. The dose can be repeated, if necessary, in two hours. We have known the pills, given in this form, to open the bowels when Croton Oil, Elaterium, Podophyllum 'Mandrake' have failed. It is seldon that a second dose will be required in these cases of Intestinal Obstructions.

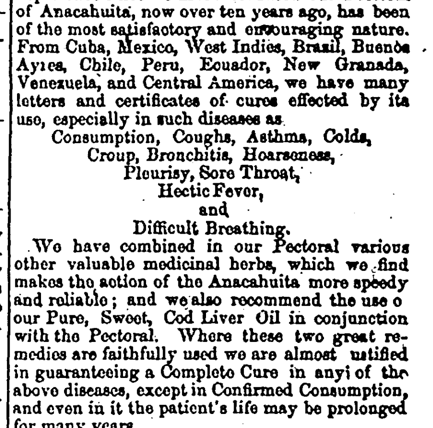
PECTORAL DE ANACAHUITA



COMPUESTO por KEMP.
A SPEEDY CURE
FOR THE DISEASES OF THE
THROAT, CHEST, AND LUNGS
The true Mexican Anacahuita, from which our Pectoral is made, is a remedy for Pulmonary Diseases, which has been known and fully tested in that country for many generations. The native Indian tribes were probably the discoverers of its wonderful medicinal virtues, as it is among them where we first find it in use; later we find it prescribed by the leading College of Physicians in Berlin, and much prized by them as a safe and reliable remedy for some of the worst forms of Pulmonary Affections. Our own experience since we first introduced our Pectoral of Anacahuita, now over ten years ago, has been of the most satisfactory and encouraging nature. From Cuba, Mexico, West Indies, Brazil, Buenos Ayres, Chile, Peru, Ecuador, New Granada, Venezuela, and Central America, we have many letters and certificates of cures effected by its use, especially in such diseases as
Consumption, Coughs, Asthma, Colds,
Croup, Bronchitis, Hoarseness,
Pleurisy, Sore Throat,
Hectic Fever,
and
Difficult Breathing.
We have combined in our Pectoral various other valuable medicinal herbs, which we find makes the action of the Anacahuita more speedy and reliable; and we also recommend the use o our Pure, Sweet, Cod Liver Oil in conjunction with the Pectoral. Where these two great remedies are faithfully used we are almost satisfied in guaranteeing a Complete Cure in any of the above diseases, except in Confirmed Consumption, and even in it the patient's life may be prolonged for many years.

FLORIDA WATER.

This exquisite Perfume is prepared direct from Blooming Tropical Flowers of surpassing fragrance. Its aroma is almost inexhaustible; while its influence on the SKIN is most refreshing, imparting a delightful buoyancy to the overtaxed Body and Mind, particularly when mixed with the water of the Bath. For

FAINTING TURNS,
NERVOUSNESS,
HEADACHE
DEBILITY,
AND
HYSTERIA,

It is a sure and speedy relief. With the very *elite* of fashion it has for 25 years maintained its ascendancy over all other perfumes throughout the West Indies, Cuba, Mexico, and Central and South America, and we confidently recommend it as an article which, for soft delicacy of flavor, richness of bouquet, and permanency, has no equal. It will also remove from the skin

ROUGHNESS, BLOTCHES,
SUN BURN, PIMPLES,
AND FRECKLES.

☞ It is as delicious as the Otto of Roses, and lends freshness and beautiful transparency to the complexion. Diluted with water it makes the best dentifree, imparting a pearly whiteness to the teeth; it also removes all smarting or pain after shaving.

SAVINGS BANK.

BANK MAUA AND CO.
101--Cangallo--103.
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount,

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes alorady mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P.P. MAUA & Co.,
M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p.%) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

THE "GLYCERINE" DIP,
FOR SHEEP AND LAMBS,
FREE FROM ARSENIC, MERCURY, MINERAL AND OTHER POISONS.
DEADLY TO ALL PARASITES INFESTING THE SKINS
OF SHEEP AND OTHER ANIMALS.

THIS PREPARATION is destined to supersede the Compounds hitherto Advertised, and which have a tendency to destroy Animals, injure the Men engaged in Dipping, and weaken the Wool by their caustic and reducing properties.

The "GLYCERINE" DIP can be used with perfect safety at any Season of the Year, and has been found in practice invaluable for the following purposes:—

I.—In Curing Scab, Killing Acari, Fags, Ticks, and other Parasites which attack the Sheep.
II.—In strengthening and adding lustre to the Wool.
III.—In Washing Sheep shortly before Clipping, leaving the Fleeces in a pure state.
IV.—In Dipping Lambs, even whilst suckling ewes, as they cannot be injured by the Material.
V.—In Dipping Rams at any Time of the Year, without danger of producing the excoriations which always follow the use of other Dips, especially in the Autumn Season.

ENGLISH SEMINARY,
85—CALLE TACUARI—85

The Undersigned has the honor to announce to the Parents and Guardians of the Youth of this City that, yielding to the frequent invitations of his Friends and of many of the Parents whose sons he had the privilege of educating when Principal of the English Seminary, 20 Suipacha, he has OPENED his new Establishment in CALLE TACUARI, No. 85.

The chief object to which he devotes his undivided attention is the preparation of the Alumni for a successful mercantile career.

The Course of Instruction embraces the most prominent parts of the popular systems adopted in England and the United States, which the Undersigned taught with such marked success during the many years he has laboured in this department.

This Establishment offers a HOME for the Children of those Parents who do not reside in the City, where their moral and intellectual culture will be assiduously promoted.

The discipline of the Seminary is paternal, firmness being blended with kindness, and the greatest care bestowed on the health and comfort of the Boarders, who are treated as members of the Principal's family.

All the Branches of a thorough English Education are efficiently taught, and the Pupils prepared for the practical discharge of their duties in any Mercantile House in which they may be placed.

Besides the rudimental English Branches, Spanish, French, Latin, Mathematics, Book-keeping, Music, and Drawing are taught by accomplished Professors.

A limited number of Boarders, Half-Boarders, and Day Scholars only admitted.

A Program will be forwarded on application.

Kemp's Vegetable Worm Pastiles,

I Certify that I have for many years been physician in the Hospitals of this city, and have had occasion to test the effects of "Kemp's Worm Pastilles." My experience causes me to consider them one of the best remedies for the expulsion of Worms. They are safe and effective, both for children and adults.

MIGUEL DE ZAYAS, M.D.
Puerto Principe, Cuba, Nov. 1, 1862.

I Certify that I have prescribed, on different occasions in my civil practice, "Kemp's Worm Pastilles" with good results. I consider them an excellent specific in the diseases produced by Worms. Their pleasant taste and smell is an important virtue in prescribing them for children.

FRANCISCO GOICOECHEA,
Professor of Medicine and Surgery, and Chief Medical Director in the Military Hospital, Bolivar City,
Venezuela, July 1, 1862.

I Certify, that I have many times prescribed "Kemp's Vegetable Worm Pastilles," and always with the same satisfactory results, for all kinds of Worms. They are easily administered, and are a safe remedy in such diseases.

FRANCISCO CASALS, M.D.
Matanzas, Cuba, May 10, 1862.

I Certify, that "Kemp's Vegetable Worm Pastilles" is one of the most efficacious remedies for removing and destroying Worms. I was for a long time a sufferer from those dangerous vermin, but the 'Pastilles' have effectually relieved me, and my health is now entirely re-established. I shall always strongly recommend this most agreeable of medicines.

LUIS FLORES.
Lima, May 26, 1862.
